GFI Archiver AI: AI-Powered Email Compliance

GFI Archiver AI is an AI-driven add-on for GFI Archiver that revolutionizes email compliance management. It scans your archived emails for regulatory violations, tailored to your organization's specific needs.

Key features

- **Smart Tagging:** Automatically assigns relevant tags to emails based on content analysis, simplifying search and archiving.
- **Natural Language Search:** Understand and process user queries to find exactly what you're looking for in the archive.
- **Customized Compliance Checks:** Scan and tag emails based on your specific regulatory requirements.
- **Intuitive Setup:** Our chatbot guides you through creating custom content filtering rules aligned with your organization's needs.
- **Automated Reporting:** Generate detailed compliance reports at the click of a button.

Why You'll Love It

- **Streamlined Storage:** Reduce server load and IT costs while boosting system performance.
- **Effortless Information Retrieval:** Find what you need quickly, freeing up IT resources for core business activities.
- **Proactive Compliance:** Get real-time insights and catch potential issues before they become problems.
- **User-Friendly:** Easy setup and management encourage organization-wide adoption.

Transform Your Email Management

Boost compliance, productivity, and data protection with GFI Archiver AI.
