

Microsoft Exchange 2016 & 2019 reaching end-of-life

Critical deadline: October 2025

The microsoft dilemma:

- Exchange Server Subscription Edition (SE) - Not yet released, shifts to subscription model
- Exchange Online - Requires full cloud migration.

Neither option works for organizations that:

- Need data sovereignty and on-premises control
- Have regulatory compliance requirements
- Prefer predictable IT budgeting
- Want to maintain control of their email infrastructure.

Introducing GFI KerioConnect:

Your reliable, cost-effective on-premises email solution

- Complete email, calendar, and collaboration platform
- Simple migration path from Microsoft Exchange
- Low hardware requirements - runs on existing infrastructure
- Multi-platform support - Windows, macOS, Linux
- Enterprise-grade security and compliance features.

Flexible subscription options:

- Monthly, annual, and multi-year terms (1-5 years available)
- Volume discounts available for larger deployments
- Predictable pricing with locked-in rates for multi-year commitments.

Limited-time migration offer:

Special pricing for Microsoft Exchange customers

We'll match what you're currently paying for Microsoft Exchange and then give you an additional 20% off.

Next steps:

- Contact your GFI partner for a free consultation
- Request a GFI KerioConnect demo
- Develop your Exchange migration plan.

Don't wait until your Exchange server loses support.
Take control of your email infrastructure now.
