GFI Software™

Why GFI KerioConnect?

KerioConnect is a mail server and an all-in-one collaboration tool that has been trusted for nearly two decades by more than 30,000 companies around the world.

It provides secure business email, calendar, and collaboration without the complexity or expense of bigger platforms. With its ease of use and simplicity, our solution is a better alternative for your small or mid-sized business clients. Some of the key features include

| FEATURES	BENEFITS
Collaboration tools support & native email client	Email, Calendars, Contacts, Tasks, Notes, and Chat functionality, along with native Desktop and Web Email Clients.
Extensive protocol support	EAS for mobile devices, EWS for macOS, POP3, IMAP, CalDav, CardDav, XMPP for Live Chat, etc.
Domain admin accounts	Individual tenants can have their own admin accounts.
Linux support	No OS License required; lower cost of deployment.
Migration tools available	Support data migration for your clients with ease.
Integration with most-used email clients	Dedicated plugin for Outlook for faster performance; smooth integration with eM Client, Thunderbird, and native applications.
Multi-domain support	Support multiple tenants per server.
Central management portal	Easier management of multiple servers through a central portal.
Extensive language support	16 languages supported – support clients from different origins.

Take a moment to view this **whitepaper** to see how KerioConnect provides an Exchange-like experience, but with far less complexity, and at a cost that small businesses can afford.

MSP Partner Benefits

✓ Build your brand

You can quickly and easily white-label or co-brand the KerioConnect interface. Simply upload your company logo and edit the color scheme to make it your own.

✓ We are 100% channel-based

Our solution is available only through the channel. We work closely with our partners from initial qualification and training to dedicated growth campaigns. We can help with up-sell opportunities and assist in closing deals.

✓ Pay as you grow

We offer flexible pay as you grow the licensing model, starting with as few as 1 mailbox license. As you expand your customer base, with volume-based licensing discounts, your margins grow as well.
