Advance Email Management and Compliance with GFI Archiver AI CoPilot

Transform your approach to email management and compliance within your organization.

Introducing GFI Archiver AI CoPilot, a powerful AI assistant that integrates with your GFI Archiver system. It understands your needs, analyzes emails for compliance risks, and helps streamline storage. Upgrade from tedious email management – Copilot makes compliance and information retrieval easy and proactive.

- ✓ Sophisticated Email Analysis with AI
- ✓ User-Friendly and Precise Email Management
- ✓ Integrated for Enhanced Compliance

Key Features

- **LLM Integration:** Harness the power of generative AI to pinpoint compliance risks, uncover sensitive data, and ensure emails align with regulations.

- **User-Friendly Chatbot Interface:** Gather essential business details from users, making sure every analysis is tailored to your specific needs.

- **Integrated with GFI AppManager:** Integrates deeply with your existing systems, ensuring efficient data flow and access.

- **Comprehensive Email Scans:** Scan emails over specified periods, zeroing in on sensitive content and compliance issues.

- **Dynamic Report Generation:** Automatically generate detailed reports for easy compliance tracking and transparent email management.

Challenge	Solution
Inefficient Email Storage and Compliance	CoPilot streamlines email management, reducing server load, and automating compliance analysis.
Navigating Complex Compliance Regulations	CoPilot pinpoints relevant regulations, so you can proactively identify and manage email-related risks.
Retrieving Important Emails Quickly	AI-powered analysis makes emails easily searchable, saving you time and effort.
Customization of Email Analysis	CoPilot's conversational interface gathers your specific needs, ensuring every analysis is relevant.

GFI Archiver AI CoPilot simplifies email management and compliance by using AI to understand your needs, analyze emails for risks, and streamline storage, making it an essential tool for proactive risk management.
